Clinical Trials

Clinical trials are for everyone, from the newly diagnosed to those who've exhausted other treatment options. Ask your medical team about available trials, and consult the following list to get started.

December 17, 2018 By Meave Gallagher

American Cancer Society

cancer.org

The "How Do I Find a Clinical Trial That's Right for Me?" guide breaks down study search criteria, how to evaluate a trial, costs and insurance coverage.

Breast Cancer Trials

breastcancertrials.org

This nonprofit trial-matching service finds options for those undiagnosed but at high risk, those who have already completed treatment and those with metastatic disease.

Cancer Research Institute

app.emergingmed.com/cri/home

CRI, which focuses on immunotherapy clinical trials, has a searchable database and personal trial navigation service that are available online or by phone at 855-216-0127.

Cancer Support Community

cancersupportcommunity.org

CSC's trial-matching service is available online or by phone at 888-793-9355. The program helps English and Spanish speakers make decisions about treatment at any stage.

CenterWatch

centerwatch.com

This global database of active industry-sponsored trials, is sorted by location and condition.

ClinicalTrials.gov

clinicaltrials.gov

The National Library of Medicine maintains a database of publicly and privately funded clinical studies spanning all medical conditions, including cancer.

EmergingMed

app.emergingmed.com

This confidential matching, referral and navigation service is designed for patients, caregivers and physicians. Search the database or request a call from a trial navigator to get matched to trials.

Fight Colorectal Cancer

trialfinder.fightcrc.org

Fight CRC staff and research advocates curate and review the Late-Stage MSS-CRC Trial Finder.

Livestrong Foundation

livestrong.org

Complete an online request form or call 855-220-7777 to be matched with a personal, confidential cancer navigator.

LUNGevity Foundation

clinicaltrials.lungevity.org

Sort this national database of hundreds of lung cancer clinical trials by condition, location, study type and more.

National Cancer Institute

cancer.gov

Search the database of active NCI-supported studies, find clinical trials, chat live or access the phone help line (livehelp.cancer.gov or 800-422-6237).

National Comprehensive Cancer Network

nccn.org

Search for clinical trials funded by the NCCN Oncology Research Program at its 27 member institutions across the United States, all of which are NCI-designated cancer centers.

OncoLink

app.emergingmed.com/OncoLink/home

OncoLink has trial information for patients, families and providers. Call 800-474-9892 or search its database, which is hosted by EmergingMed.

Trials Today

trialstoday.org

As part of ResearchMatch, Trials Today uses a questionnaire and searchable database to match people who want to participate in studies with researchers at academic institutions.
