Connecting the Dots

MRA's 2017–2018 Annual Report

October 30, 2018 By Melanoma Research Alliance

By Cody R. Barnett, MRA Director of Communications

Since our founding in 2007, the Melanoma Research Alliance (MRA) has become the largest nonprofit funder of melanoma worldwide. Since 2007, we have directly funded more than $101 million in grants and leveraged an additional $101 million from outside sources to support 266 research projects.

These investments are unparalleled and have helped to transform the landscape for patients and their families.

In our 2017/18 report, we are proud to showcase many key achievements from the past year. Check out the annual report to learn more about the research we've funded, the partnerships we've forged, the progress we've made and the donors who help to make it all possible.

Read the report.
